

2020 NASC Executive Council

The National Assembly of Sportsmen's Caucuses is guided by the Executive Council, which is comprised of state legislators elected by their peers to provide advice and counsel to the Congressional Sportsmen's Foundation and NASC. The Council assists with the establishment and promotion of pro-sportsmen ideas, and facilitates the sharing of information between state caucuses, conservation partners and allied industries. The Executive Council plays a critical role in the protection and advancement of hunting and angling rights and the continuation of our sportsmen's heritage by establishing the activities of NASC, adopting issue briefs, and setting guidelines for affiliated state caucuses. The 12 elected members from NASC member states ensure that NASC is able to provide the best service possible to the individual state caucuses.
